

Walkie Stacker & Electric Pallet Jack Certificate

Fast and effective training for operators of walk-behind forklifts. If you have a pallet jack, walkie stacker, straddle truck or any variation of pedestrian-operated forklift, your operators and business would benefit from our comprehensive online theory training.

This course will give your operators a competency certificate that meets your Health and Safety at Work Act 2015 requirements to provide training and induction.

Modules include:

- Health and safety
- Types of equipment
- Parts and pre-operational checks
- Hazards
- Capacity and stability
- Operating skills
- Pallet safety and stacking rules
- Parking and shutdown

This course was co-produced by Tasman Training Ltd, TR Driver Training and DT Driver Training. It is exclusively delivered via DT's e-learning platform at www.drivingtests.co.nz. Price correct at time of document authoring.

Who is this course suitable for?

Operators that need to complete the 3-yearly renewal for a manual or electric pallet jack or walk-behind forklift.

How does the course work?

The course is available on a smartphone, tablet or computer wherever you have internet access. It's cheaper than comparable classroom-based courses and your operator will only take around an hour to do the theory online, plus you can conduct the 10-minute practical assessment internally.

Where can you do the final assessment?

We provide a detailed practical assessment guide so that you can do the practical assessment in your own warehouse using your own equipment lifting your own loads. Your warehouse supervisor or other authorised person can do this.

How do you get your drivers enrolled?

Contact the person that sent you this brochure, or visit www.drivingtests.co.nz/courses, search 'walkie', add the course to your cart and check out, or please email contact@drivingtests.co.nz
