

Forklift mounted safety platform

Requirements and safe working practices

Both the forklift operator and the person using the safety platform must be trained in its use, and this course is the perfect option to upskill your team.

You'll learn how to:

- Safely connect the platform to the forklift
- Operate the forklift with the platform
- Check the platform is OK by conducting a pre-operation check
- Calculate load ratings and capacities
- Put on a harness and connect it to the cage
- Handle emergency procedures.

How does the course work?

Works on any smartphone, tablet or PC with internet access. Access course materials for 6 months. A certificate of achievement is supplied on completion.
